

THWACKING TECHNIQUE

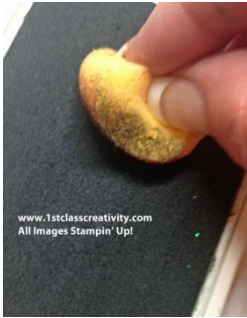

The thwacking technique is an easy and simple technique that can bring dimension to your paper crafting projects. The term Thwack means – to strike forcefully with a sharp blow. We are not suggesting that you forcefully strike your paper but it does require a swift, firm motion with your stamping sponge.

What you need to complete this technique:

- Card Stock – we used Very Vanilla (Item#101650)
- Ink – we used Always Artichoke (Item# 126972)
- Stamping Sponges (Item#101710)

Instructions:

1 – Take your Stamping Sponge and rub on the Classic Ink

2 – Next Thwack your sponge against the edges of the paper using a firm swift motion. Repeat as necessary to get desired look.

3 – You are done!
